TIMELESS

by Formani

Authenticity is what defines our TIMELESS hardware series. As the name of the series implies, the comprehensive range has stood the test of time. It comprises products from times gone by that have been given a new lease of life by FORMANI – some of which combined with elements of modern technology and functionality. The designs of the door handles in the TIMELESS collection can be traced back to the period from 1815 to 1950. The models are each named after the year in which they are fashioned. Besides the door handles, the TIMELESS series offers window and cabinet hardware and comprehensive accessories that complete the entire design. The products are available with authentic flat rosettes and shields, fastenings with vintage-design screws, materials such as brass as a base material – sometimes complemented by ebony – and original finishes in matte or glossy nickel and unlacquered brass. Where required, this authentic design is combined with contemporary technology such as SKG* safety fittings, spring mechanisms, and special PVD coatings to offer protection in the event of outdoor use.**

FORMANI®

Brand story

FORMANI has evolved considerably over the last few decades – from a Dutch family business to an internationally renowned designer brand, from door handles to total design concepts, from product development to collaborations with world-class designers. It was an evolution driven by pure ambition and courage. Our motto, ‘Obsessed with details’, epitomizes everything we do, from product to process, from strategy to service. Because it is these details that make the difference between good and perfect. At FORMANI, good is the enemy of great.
